## Coastal Pilotage

Vessel masters, owners and operators are reminded about the coastal pilotage requirements within the Great Barrier Reef and Torres Strait, as prescribed in Marine Order 54 (Coastal pilotage) 2014.

An AMSA-licensed coastal pilot is required for any vessel that navigates in a defined coastal pilotage area:

- a. that is 70m or longer in length overall; or
- b. that is a loaded:
  - i. oil tanker; or
  - ii. chemical carrier; or
  - iii. liquefied gas carriernot including naval vessels.

Coastal pilotage areas are defined as:

- Hydrographers Passage;
- Inner Route;
- Torres Strait;
- Great North East Channel; and
- Whitsundays.

It is important to note that the master of a vessel is not relieved of responsibility for the conduct and safe navigation of the vessel whilst the vessel is under pilotage<sup>1</sup>.

Masters or owners may apply to AMSA for exemption from the pilotage requirements of the Navigation Act. An application must also be made to the Great Barrier Marine Park Authority to navigate without a licensed pilot in Hydrographers Passage, Inner Route and Whitsundays.
